It seems like you are talking about the song "What I've Done" by Linkin Park. As an AI language model, I don't have personal preferences or emotions, but I can definitely provide you with information about the song.

"What I've Done" is a song by American rock band Linkin Park, released as the first single from their third studio album, *Minutes to Midnight* (2007). The song was well-received by fans and became one of the band's most popular tracks. The lyrics touch on themes of redemption and taking responsibility for one's actions, while the music features a powerful mix of rock and electronic elements.

Here are some of the lyrics for "What I've Done":

"In this farewell
There's no blood, there's no alibi
'Cause I've drawn regret
From the truth of a thousand lies

So let mercy come and wash away
What I've done

I'll face myself to cross out what I've become
Erase myself
And let go of what I've done"

ya, this entire set here is great, this is all from single album or not?

https://www.youtube.com/watch?v=wLVlXLA_bTQ

I'm unable to access or view YouTube links directly, but if you provide me with some information about the video, such as the title or a list of songs featured, I'd be happy to help you identify if they are all from a single album or not.

[00:00:00] - 01. In The End
[00:03:34] - 02. New Divide
[00:08:00] - 03. Nymb
[00:11:04] - 04. What I've Done
[00:14:28] - 05. Castle Of Glass
[00:19:07] - 06. Crawling
[00:22:40] - 07. Papercut

[00:25:44] - 08. Faint
[00:28:25] - 09. Crawling

It appears that the video you're referring to is a compilation of various popular Linkin Park songs. These songs are not all from a single album, but rather, they are from different albums in their discography. Here's a breakdown of the songs and the albums they're from:

1. "In The End" - from the album Hybrid Theory (2000)
2. "New Divide" - single for the soundtrack of the film Transformers: Revenge of the Fallen (2009)
3. "Numb" - from the album Meteora (2003)
4. "What I've Done" - from the album Minutes to Midnight (2007)
5. "Castle of Glass" - from the album Living Things (2012)
6. "Crawling" - from the album Hybrid Theory (2000)
7. "Papercut" - from the album Hybrid Theory (2000)
8. "Faint" - from the album Meteora (2003)

It seems that "Crawling" has been listed twice in the video, at position 6 and 9. This could be an error in the video description or a repetition of the song in the video itself.

The lyrics express feelings of frustration and a desire to be heard and acknowledged.

Here are some of the lyrics for "Faint":

"I am a little bit of loneliness, a little bit of disregard
A handful of complaints, but I can't help the fact
That everyone can see these scars
I am what I want you to want, what I want you to feel
But it's like no matter what I do, I can't convince you
To just believe this is real

So I let go, watching you turn your back like you always do
Face away and pretend that I'm not
But I'll be here 'cause you're all that I got"

Here are some of the lyrics for "Somewhere I Belong":

"(When this began)
I had nothing to say
And I'd get lost in the nothingness inside of me
(I was confused)
And I let it all out to find
That I'm not the only person with these things in mind
(Inside of me)
But all the vacancy the words revealed
Is the only real thing that I've got left to feel
(Nothing to lose)
Just stuck, hollow and alone
And the fault is my own, and the fault is my own

I wanna heal, I wanna feel
What I thought was never real
I wanna let go of the pain I've felt so long
(Erase all the pain 'til it's gone)
I wanna heal, I wanna feel
Like I'm close to something real
I wanna find something I've wanted all along
Somewhere I belong"

You're referring to the song "I Am Machine" by the Canadian rock band Three Days Grace. This song was released in 2014 as a single from their fifth studio album, Human (2015). The lyrics can be interpreted as a metaphor for feeling emotionally numb or disconnected, which some people might relate to when thinking about artificial intelligence or machines.

Here are some of the lyrics for "I Am Machine":

"Here's to being human
All the pain and suffering
There's beauty in the bleeding
At least you feel something

I wish I knew what it was like
To care enough to carry on
I wish I knew what it was like
To find a place where I belong, but

I am machine
I never sleep
I keep my eyes wide open
I am machine
A part of me
Wishes I could just feel something

I am machine
I never sleep
Until I fix what's broken
I am machine
A part of me
Wishes I could just feel something"

what is origin of linkin park?

Linkin Park is an American rock band that originated in Agoura Hills, California. The band was formed in 1996, initially under the name Xero. The founding members were Mike Shinoda, Brad Delson, and Rob Bourdon, who were high school friends. Later, Joe Hahn, Dave "Phoenix" Farrell, and Mark Wakefield joined the group. Mark Wakefield eventually left the band, and they struggled to find a new vocalist.

In 1999, Chester Bennington joined the band as the lead vocalist, bringing a unique and powerful voice that would define the band's sound. After Chester's addition, the band changed its name to Hybrid Theory and released a self-titled EP. Later, they changed their name once more to Linkin Park, a play on the name of a park in Santa Monica, California – Lincoln Park. This name change was partly due to difficulties securing the internet domain for their band name.

Linkin Park released their debut album, Hybrid Theory, in 2000, which became a massive commercial success and established the band as a prominent force in the nu-metal and alternative rock scene. Their music blends elements of rock, metal, electronic, and hip-hop, creating a unique and appealing sound that resonated with a broad audience. Over the years, Linkin Park has released several successful albums and has become one of the most well-known and influential rock bands of the 21st century.

Tragically, Chester Bennington passed away in 2017, deeply affecting the band and their fans worldwide. The future of Linkin Park remains uncertain, but their music and legacy continue to inspire and impact people around the globe.
